

DEAR FRIENDS,

We have a great response to the naming contest for the rhino head sculpture. We will announce the name on Friday, April 6th around noon.

Our new shopping center at the corner of Bridgeport Ave and Commerce Drive is coming along nicely. We are hoping for an early summer opening. It will have a drive-thru Starbucks, which was the motivation for the project, since so many of you have been asking to get a Starbucks on the campus.

Our next Nights With Shakespeare will begin on Tuesday, May 1st. The play will be Richard II. Visit www.NightsWithShakespeare.com for more updates. Pranzo stays open late on Tuesday nights for those who attend.

TENANT SPOTLIGHT

Spring has finally arrived, unfortunately so have spring allergies. If you are suffering from frequent sneezing, runny nose, congestion, coughing or itchy, watery eyes then the Allergy Center of Connecticut is here to help. Despite the snow left on the ground, tree pollen is already in the air and levels are going to rise significantly over the next few months. The Allergy Center can help you identify the specific cause of your symptoms, stop your suffering and take advantage of one of many available treatment options.

Allergy Center of Connecticut provides state of the art, patient centered care right here in the Scinto Towers. With the help of Bob Scinto and his team, we successfully relocated to our Shelton location in 2014. Since that time, the practice has grown tremendously and we are pleased to announce that our office just finished its first expansion. It has been great joining such a diverse community of businesses and people.

Our providers treat a wide variety of allergic conditions including; environmental allergies, food allergies, asthma, eczema and hives. Our goal is to get you outside, to enjoy the wonderful weather and facilities without fear.

IS NOW OFFERING TESTOSTERONE THERAPY!

If your man is suffering from "low T" he may be experiencing the following:

FATIGUE & LOSS OF STAMINA

POOR SEXUAL PERFORMANCE

REDUCED JOY & HAPPINESS

LOSS OF MUSCLE SIZE & WEAKNESS

IRRITABILITY

The decline in male testosterone over age 40 is a natural part of aging; no man can avoid it. Due to lifestyle factors including: high stress at work, poor diet, reduced physical activity, and poor sleep habits, T levels levels will drop.

Testosterone replacement therapy can raise his level to where it should be!
(Pun Intended)

YOUR MAN WILL QUICKLY EXPERIENCE

- ✓ INCREASED ENERGY & MENTAL CLARITY
- ✓ INCREASED MUSCLE TONE & REDCUCTION OF FAT STORES
- ✓ RESTORATION OF SEXUAL FUCTION, DESIRE & ERECTIONS
- ✓ LOWER CHOLESTEROL, REDUCED SUGAR LEVELS & RISK OF HEART DISEASE
- ✓ IMPROVEMENT IN SENSE OF WELL-BEING & MOTIVATION
