

DEAR FRIENDS,

I want to thank everyone who worked so hard to make the carnival a huge success. We had over 16,000 people and it's a real thrill to see the young ones come with such enthusiasm. It's also a great opportunity for people who work at different companies to meet their families on an informal basis. Again, thank God for the weather. We've been so lucky with this event. Each year we try to make it better.

On Saturday, September 22, we opened up the new Starbucks. I have been trying to get them here for almost 10 years. I even offered to subsidize them if they came into the park, but they insisted on having their own building. We are so happy with the way the building came out. Their first day was a great success. Soon we will have several more fine dining facilities in the plaza. I believe this will give us a real cosmopolitan feel. Thanks for all your support.

In August, we announced the new chiller system in Tower 1. Here are some new photos of the fully installed and operational system. The chiller will regulate the temperature for the entire building for many years to come and is located on the roof of the building. We are constantly updating and improving our buildings and take great pride in what we do, always keeping our tenants in mind.
