

DEAR FRIENDS,

Some people are beginning to come back to work at their office. What I hear most from my friends is that they are dying to get back to work. We have done everything the state has asked us to do to be safe so you can be confident coming into the buildings.

We missed the Labor Day Picnic and carnival this year, but we will have them next year, I promise.

We all need to work together and get this behind us as soon as possible. Stay optimistic and safe.

Bob Scinto

R.D. SCINTO NEWS AND EVENTS

October 31: Halloween

November 11: Veterans Day

November 26: Thanksgiving

Amerilert: In the event of an emergency, R. D. Scinto uses an **Emergency Notification System** to notify tenants of an emergency that could affect use of or access to their facilities. Events such as extended power outages, loss of HVAC, fire, flood, or police activity. We provide timely and factual information updates vital to making business continuity decisions. If you are a Senior Manager, HR Manager, or responsible for such decisions, we urge you to sign up now.

SEND AN EMAIL TO security@scinto.com TO RECEIVE THE (3MINUTE) SIGN-UP INFORMATION.

**If you do not already receive our emails, sign up for email updates on our website or by sending an email to newsletter@scinto.com that says "sign me up!"*

TENANT SPOTLIGHT

The RD Scinto community is quickly getting to know Progressive Diagnostics for fast, accurate, and local COVID-19 testing at **2 Trap Falls Shelton**. Prior to the pandemic, Progressive was known as one of the largest and most respected drug testing laboratories in New England. Once the pandemic hit, Progressive acted quickly to expand its lab to support high volume FDA EUA COVID-19 testing.

VIRUS/PCR SALIVA TESTING:

Progressive uses patient friendly saliva tests, instead of invasive nasopharyngeal swabs, to determine if an individual is currently infected. COVID-19 virus/PCR tests are appropriate for individuals who may have been exposed to COVID-19 or are experiencing symptoms.

ANTIBODY TESTING:

Progressive uses antibody blood tests to detect the body's natural immune response to the virus which can be helpful to individuals who believe that they may have been previously infected with the virus.

Progressive Diagnostics is currently being offered at the Patient Service Center at 2 Trap Falls Road in Shelton. They also support the greater Connecticut community by offering testing at off-site partner locations including places of employment, educational institutions, and mobile health fairs.
